

With MCPc and Lenovo, You're One Step Ahead of the Game.

Ask any kid today, and he'll probably tell you how much he enjoys learning with a laptop. Kids can do so much more when they're working with a computer, and the skills they learn are invaluable.

That's why MCPc and Lenovo are teaming up this summer to show off the latest ThinkVantage products. We'll talk about the latest laptops and tablets that enhance learning, not only for today's students, but for educators too.

Join us on August 17 when we stop by Mt. Gilead High School for a quick briefing on Lenovo, MCPc and Microsoft. We'll show you how you can purchase affordable technologies that will keep your kids one step ahead of the game.

Learn About Today's Hottest Technology for Today's Students and Educators.

WHEN: Wednesday, August 17, 2005

10 a.m. - 12:30 p.m.
Lunch will be provided.

WHERE:

Mt. Gilead High School
338 Park Avenue, Mt. Gilead, OH 43338

Please respond by August 15 to
Michelle Feasel at 614-210-6300, ext. 5301.
