### **MCPc Ranks No. 173 Among North America's Top 500 Technology Integrators by *VARBusiness* Magazine**

**CLEVELAND** – June 13, 2005 – MCPc, a Cleveland-based reseller of computer technology products and solutions, was ranked No. 173 on the *VARBusiness* 500, according to *VARBusiness* magazine. The company was recognized as one of the Top 500 revenue-producing computer technology solution providers in North America.

For the second year in a row, MCPc finished among the nation's Top 200 integrators. It first made the list in 2004, when it was ranked No. 176. Since then, the company's revenue has grown to \$149 million in calendar year 2004.

"It's an honor to make the *VARBusiness* 500 two years in a row," said Mike Trebilcock, MCPc Chairman and CEO. "It's always been our goal to deliver the best IT products and solutions, and to exceed our customers' expectations. We have a lot to be proud of."

*VARBusiness* has been tracking the Top 500 technology resellers by annual revenue for the past 11 years. The list includes private firms and public companies.

"Companies like MCPc are powering our national economic engine and keeping it competitive," said Robert C. DeMarzo, *VARBusiness* publisher.

*VARBusiness* 500 companies are the leading revenue producers among approximately 90,000 solution provider organizations. They account for \$334 billion in sales of information-technology (IT) services and products.
